MARINE

CATALOGUE

Parts and equipment for launches,
passenger craft, workboats and leisure boats.

Marine Supply. Technical Support. Delivered.

34 PRODUCT CATEGORIES

Part number. Photograph. Quantity. Required date.

TAP OR SCAN TO CHAT

The part you need.

A clear enquiry. A clear quotation.

Vinzorbel Marine Solutions focuses on parts and equipment enquiries for smaller vessels. Browse the range, identify the item and send us your requirements for matching and quotation.

ENGINE PARTS

DECK EQUIPMENT

ANCHORING

Pilot launches / Passenger boats / Workboats / Leisure craft

YOUR ENQUIRY	WHAT TO INCLUDE
01 Identify	Equipment make, model, serial number and part code.
02 Show	Photographs of the markings, connections and mounting.
03 Specify	Quantity, delivery location, target date and required certificates.
04 Review	The quotation confirms the offered item, availability, price and lead time.

HOW TO USE THIS CATALOGUE

Photographs illustrate the product ranges. They may show a different make or model from the item eventually quoted. Tables help identify and specify the required equipment; exact ratings and compatibility are confirmed for the quoted item.

Find your product range.

Tap a range to open its page.

ENGINE & PROPULSION

01 Engine cooling & pump spares 5
02 Heat exchangers & exhaust components 6
03 Flexible engine mountings 7
04 Anodes & corrosion protection 8
05 Fuel filtration 9
06 Fuel-conditioning units 10
07 Engine instruments & senders 11
08 Propellers & hubs 12

CONTROLS & NAVIGATION

09 Throttle, shift & electronic controls 13
10 Steering systems & hydraulics 14
11 Trim tabs & actuators 15
12 Helm compasses 16
13 Marine binoculars 17
14 Fishing & underwater equipment 18

DECK & HULL

15 Fenders, buoys & berthing 19
16 Windlasses, winches & anchoring 20
17 Towing hooks & release systems 21

Parts enquiry guide 42
Photo & product references 44

RANGE 01

Engine cooling & pump spares

Raw-water cooling pumps and service parts. Identify the installed pump accurately before ordering an impeller or a complete replacement.

777-9001 model

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the pump label and an end-on photograph of the old impeller.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Complete raw-water pumps	Engine-driven cooling-pump replacements	Engine and pump make / model; serial
Flexible impellers	Replacement rubber impellers	Diameter; width; bore; drive profile
Pump service kits	Seals, bearings, wear plates and covers	Pump number; required service parts
Drive arrangements	Gear, pulley, flange and other specified drives	Drive fit; rotation; mounting
Clutch-driven pumps	Electromagnetic-clutch pump enquiries	Duty; drive; voltage; existing model
Fittings & elbows	Connections for the installed cooling pump	Port size; thread; hose diameter

EQUIPMENT / BRAND REFERENCES

Jabsco / Johnson Pump / Sherwood / DJ Pump / VETUS

Engine: Make, model and serial number | Pump: Manufacturer and stamped number

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 02

Heat exchangers & exhaust components

Engine heat-transfer and exhaust components. Match the engine specification, connection sizes and the existing component identification.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the component number and photographs showing all ports and mounting points.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Heat exchangers	Engine heat-transfer units	Engine model; component code; connections
Oil coolers	Engine, transmission and hydraulic duties	Application; ports; heat / flow duty
Exhaust manifolds	Engine-specific marine manifolds	Engine model / serial; part number
Cooling components	End caps, tube bundles and service parts	Installed unit; component reference
Connections & seals	Ports, elbows, gaskets and associated parts	Thread / hose sizes; fitting arrangement

EQUIPMENT / BRAND REFERENCES

Bowman / Chang Yung / engine manufacturer

Engine: Make, model, serial number and power | Component: Manufacturer and part number

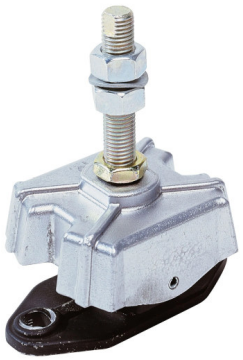

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 03

Flexible engine mountings

Flexible engine and machinery mounts. Selection depends on the supported load, mounting geometry and the equipment manufacturer's requirements.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the old mount markings and measurements rather than selecting by appearance alone.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Engine mounts	Flexible mount assemblies	Equipment model; load per mount
Gearbox / machinery mounts	Drivetrain and auxiliary-equipment mounts	Supported load; number of mounts
Adjustable mount assemblies	Stud and height-adjustable arrangements	Height range; stud / thread details
Vibration-isolation fittings	Mounts selected for the installed machinery	Manufacturer reference; mounting geometry
Mount hardware	Studs, nuts and associated connection parts	Thread; fixing centres; existing photographs

EQUIPMENT / BRAND REFERENCES

Existing mount manufacturer / part number / VETUS

Equipment: Engine / machinery model and mass | Loading: Number of mounts and load per mount

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 04

Anodes & corrosion protection

Replacement anodes for shafts, hulls, rudders, engines and drives. Match the existing fitting and the required alloy.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the old anode's markings and the water environment in your enquiry.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Shaft anodes	Split collars; streamlined shaft formats	Shaft diameter; alloy; existing code
Hull anodes	Bolt-on, weld-on and shaped plates	Overall size; fixing centres; alloy
Rudder anodes	Disc and shaped rudder fittings	Diameter; bolt size; thickness
Engine anodes	Pencil elements; threaded plug assemblies	Engine model; thread; element size
Outboard / drive anodes	Engine-specific kits and replacements	Make; drive model; year; part code

EQUIPMENT / BRAND REFERENCES

Martyr / Tecnoseal

Fitting: Shaft, hull, rudder, engine or drive | Dimensions: Diameter, hole spacing and thread

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 05

Fuel filtration

Fuel-filter assemblies and replacement elements. Match fuel type, required flow and the vessel's installation requirements.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the element number and housing label; visually similar elements can differ.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Fuel / water separators	Complete filter and separator assemblies	Fuel type; required flow; engine
Replacement elements	Housing-specific filter elements	Element code; filtration rating
Multi-unit filter arrangements	Duplex, parallel and other specified systems	Duty; piping arrangement; housing models
Bowls & housings	Clear / metal bowls and compatible housings	Assembly model; part number
Seals, drains & sensors	Gaskets, drain parts and water-detection parts	Installed separator; accessory code

EQUIPMENT / BRAND REFERENCES

Parker Racor / VETUS

Fuel: Diesel or petrol application | Equipment: Engine and existing separator model

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 06

Fuel-conditioning units

Fuel Mag and Purafiner-type equipment enquiries, replacement units and associated fittings. Selection is checked against the intended fuel-system application.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

State the specific equipment required and include existing installation details.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Inline conditioning units	Requested magnetic / conditioning equipment	Manufacturer; model; fuel circuit
Replacement units	Like-for-like equipment enquiries	Existing nameplate and installation
Mounting & connections	Brackets, fittings and connection hardware	Port size; thread; available space
Fuel-system accessories	Compatible items specified by enquiry	Duty; flow; required manufacturer documentation

EQUIPMENT / BRAND REFERENCES

Fuel Mag / Purafiner / AXI

Installed unit: Make, model and nameplate photograph | Fuel circuit: Fuel type, flow and arrangement

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 07

Engine instruments & senders

Engine and tank monitoring components. Gauge and sender specifications must match for a correct replacement.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include markings from both the instrument and its sender, where available.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Engine gauges	RPM, pressure, temperature, volts and amps	Gauge range; cutout; system voltage
Tank-level senders	Fuel / water level and tube-type senders	Tank depth; mounting; signal range
Pressure & temperature sensors	Senders and switching components	Thread; signal; range; existing code
RPM sensors	Magnetic and system-specific pickups	Engine / instrument model; pickup fit
Alarm & level switches	High / low level and engine-alarm devices	Switching duty; voltage; mounting
Instrument panels	Engine panels and matching instruments	Engine make / model; panel number

EQUIPMENT / BRAND REFERENCES

KUS / VDO / WEMA / VETUS

Instrument: Gauge type, range and cutout | Signal: Sender resistance or output specification

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 08

Propellers & hubs

Propeller and hub enquiries for outboards and inboard installations. Match the engine, drive and propeller markings before confirming an alternative.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Photograph the markings and hub. Include the engine's operating information where available.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Outboard propellers	Aluminium and other requested materials	Engine make / model; power; year
Inboard propellers	Propellers matched to the shaft arrangement	Shaft fit; diameter; pitch; rotation
Drive-specific propellers	Stern-drive and other specified enquiries	Drive model; hub / spline fit
Hub kits & drive hardware	Compatible hubs and installation components	Propeller code; drive connection
Replacement identification	Like-for-like or suitable alternative enquiries	Stamped code; blade count; photographs

EQUIPMENT / BRAND REFERENCES

Engine / drive manufacturer and existing propeller make / Solas

Engine / drive: Make, model, power and year | Propeller: Stamped diameter, pitch and part number

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 09

Throttle, shift & electronic controls

Throttle and shift control parts for small boats and workboats. Match the cable ends, travel and engine-control arrangement.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Measure the existing cable and send close-up photographs of both ends.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Mechanical controls	Single / twin-lever throttle and shift heads	Engine count; mounting; existing model
Control cables	Push-pull and common 33C-style formats	Cable code; length; travel; end fittings
Special control cables	Vernier and specified remote-control cables	Operating duty; connection details
Linkages & fittings	Clevises, ball joints, clamps and brackets	Thread / pin sizes; end photographs
Multiple stations	Selector and dual-station arrangements	Station count; engines; existing system
Electronic controls	Control stations, actuators and connections	System make / model; required component

EQUIPMENT / BRAND REFERENCES

Morse / Flexball / TSK / VETUS

Engine setup: Engine and gearbox make / model | Cable: Part number, length and end fittings

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 10

Steering systems & hydraulics

Hydraulic and mechanical steering components for compatible inboard and outboard installations. Match the entire steering arrangement when selecting parts.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the helm and cylinder labels with photographs of the steering installation.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Hydraulic helms	Helm pumps and compatible components	System make / model; steering arrangement
Steering cylinders	Inboard / outboard cylinder arrangements	Engine; geometry; model; mounting
Mechanical helms / cables	Cable-operated steering parts	Helm model; cable code / length
Power steering	Power-assisted hydraulic arrangements	Vessel duty; supply; installed system
Hoses, valves & fittings	Hydraulic and connection components	Port / tube sizes; hose runs; fittings
Autopilot interfaces	Specified control and system components	Installed steering / pilot models; interface

EQUIPMENT / BRAND REFERENCES

SeaStar / Uflex / Lecomble & Schmitt / Hydrodrive / VETUS

Vessel / engine: Boat and engine / drive details | System: Make and installed model numbers

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 11

Trim tabs & actuators

Trim-tab equipment for suitable small-craft installations. Enquiries can cover a complete kit or an individual replacement component.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

A photograph of the transom and actuator label helps identify the correct parts.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Complete trim-tab kits	Tab blades, actuators and mounting hardware	Vessel size; tab dimensions; voltage
Actuators	Standard and installation-specific replacements	Brand; model; stroke; connection
Tab blades	Replacement blades and mounting formats	Width; length; existing hole pattern
Helm controls	Switches and position-indicator systems	Installed system; required functionality
Wiring & fittings	Harnesses, brackets and connectors	System model; cable length; part photographs

EQUIPMENT / BRAND REFERENCES

Lenco

System: Existing trim-tab brand and model | Tab size: Blade width, length and mounting type

REQUEST A QUOTE
Send your part number, photos, quantity and required date.

RANGE 12

Helm compasses

Magnetic compasses for helm consoles, brackets and binnacles. Select the mounting arrangement and the correct model for the vessel.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include a view of the helm and the existing compass mounting.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Flush-mount compasses	Console and deck-mounted units	Cutout; dial size; mounting arrangement
Bracket compasses	Removable and adjustable bracket formats	Available space; bracket / unit dimensions
Binnacle compasses	Pedestal and binnacle installations	Vessel arrangement; compass size
Handheld compasses	Portable bearing and backup formats	Operating use; size; preferred make
Lighting & covers	Compatible lights, covers and mounting parts	Compass model; voltage; accessory code

EQUIPMENT / BRAND REFERENCES

Plastimo / Tokyo Compass / Daiko / Ritchie

Mounting: Flush, bracket or binnacle | Size: Card diameter and existing cutout

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 13

Marine binoculars

Optical equipment for lookout duties and onboard observation. Compare the optical format, handling and required features.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Specify whether a built-in compass is required when requesting options.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Marine binoculars	7 x 50 and other requested optical formats	Magnification; lens size; focus preference
Compass binoculars	Optics with an integrated bearing compass	Compass required; intended operating use
Optical configurations	Prism, lens-coating and focus options	Preferred brand; handling requirements
Night observation	Night-viewing equipment by enquiry	Intended duty; preferred model; power
Accessories	Straps, protection and compatible parts	Equipment model; accessory required

EQUIPMENT / BRAND REFERENCES

Plastimo / Steiner

Optical format: Magnification and objective diameter | Compass: Required or optional

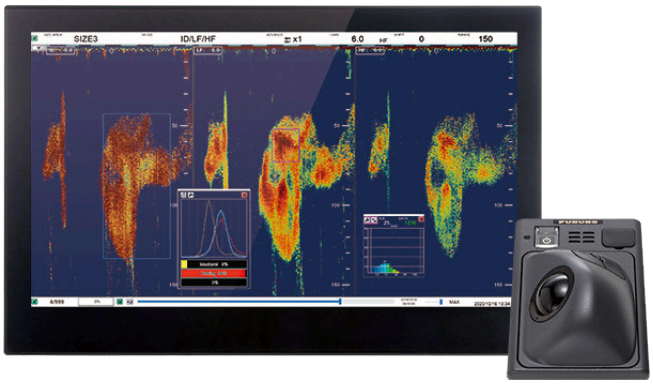

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 14

Fishing & underwater equipment

Underwater viewing, fishing equipment, lighting and electronic accessories. Define the operating duty and match components to the installed system.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

For a replacement sensor, send the model and connector photographs.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Underwater cameras	Camera, display and cable systems	Viewing duty; depth; cable length
Camera accessories	Lights, housings, fins and connectors	Camera model; mounting; connection
Fishing reels / rollers	Powered fishing and roller arrangements	Vessel duty; power; required configuration
Fishing lamps	Specified lamp and light-control systems	Lamp type; wattage; voltage; fitting
Displays & power equipment	Monitors and matching control components	Installed model; electrical supply
Fish-finding electronics	Sounders, fish finders and transducers	Display / sensor model; mounting; connector

EQUIPMENT / BRAND REFERENCES

Furuno / Garmin / Koden / existing equipment make

Application: Fishing, inspection or underwater viewing | System: Existing make and model

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 15

Fenders, buoys & berthing

Berthing protection and floating markers for launches, passenger boats and other small craft. Choose sizes for the vessel and intended duty.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the boat size and a photograph of the current fender arrangement.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Cylindrical fenders	Twin-eye and other berthing formats	Length; diameter; quantity
Round fenders / buoys	Round-profile protection and marker buoys	Size; duty; eye arrangement
Special-profile protection	Bow, corner and shaped fender enquiries	Contact area; mounting; dimensions
Commercial berthing protection	Protection selected for the vessel duty	Boat size; berthing conditions; layout
Accessories	Inflation, lines and attachment components	Fender make / model; accessory required

EQUIPMENT / BRAND REFERENCES

Polyform / Majoni

Dimensions: Length, diameter or preferred size | Use: Berthing protection or buoy duty

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 16

Windlasses, winches & anchoring

Anchoring and handling equipment, controls and service parts. Enquiries can cover a complete unit or a component matched to an existing installation.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the chain specification and gypsy markings for anchoring-system replacements.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Anchor windlasses	Horizontal / vertical, electric and other drives	Vessel; mounting; drive; chain specification
Deck winches	Manual, electric, hydraulic or diesel enquiries	Required load; line; power; operating use
Small anchor winches	Compact anchoring arrangements	Boat size; anchor / rode; power
Controls & protection	Switches, contactors and matching protection	Unit model; voltage; control requirement
Gypsies / service parts	Compatible gypsies and unit components	Windlass model; chain standard; part code
Anchors, chain & hardware	Anchors, shackles, swivels and connection parts	Dimensions; chain standard; load requirements

EQUIPMENT / BRAND REFERENCES

Quick / Trac / Data

Unit: Make, model and vessel details | Duty: Required load and operating use

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 17

Towing hooks & release systems

Towing-hook equipment and compatible release components. Rated capacity, installation and documentation are essential to a complete enquiry.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Provide the rated-load requirement and installation drawing. Certification is checked for the quoted equipment.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Spring-loaded towing hooks	Hook arrangements by specified load	Required SWL; mounting; certification
Quick-release hooks	Manual or remotely released formats	Towing duty; release arrangement
Hydraulic release parts	Cylinders, power and control components	System make; supply; installed parts
Pneumatic release parts	Air-operated release and control components	Air supply; system model; components
Foundation & service items	Mounting and manufacturer-specific parts	Hook model; drawing; required documentation

EQUIPMENT / BRAND REFERENCES

Data / specified hook manufacturer

Rating: Required SWL and certification | Operation: Release type and towing duty

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 18

Deck hatches & access plates

Access and opening components for hulls, decks and cabins. Accurate opening dimensions are essential when replacing an existing unit.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Provide both the cutout and outside dimensions, with clear mounting photographs.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Deck hatches	Square, rectangular and round formats	Cutout; overall size; corner radius
Portholes / portlights	Opening and fixed glazing units	Opening size; material; existing model
Inspection hatches	Access hatches and covers	Opening; mounting; operating duty
Deck plates	Inspection and access-plate formats	Diameter / size; fixing; material
Hardware & seals	Handles, hinges, gaskets and fasteners	Unit model; part photographs; dimensions

EQUIPMENT / BRAND REFERENCES

Bomar / existing hatch manufacturer / VETUS

Opening: Cutout, overall size and corner radius | Construction: Material, glazing and finish

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 19

Doors, windows & side scuttles

Doors, windows and access covers for vessel cabins and structures. Supply drawings where a replacement must match an existing opening.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include required ratings and certificates with the enquiry drawing.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Marine doors	Steel / aluminium door arrangements	Opening; material; required rating
Weather / watertight openings	Specified closure and sealing formats	Drawing; duty; certification needs
Cabin / fire doors	Specified cabin and fire-rated enquiries	Rating; opening; hinge and closure details
Windows / side scuttles	Fixed, opening and lifting glazing formats	Cutout; glazing; frame; mounting
Hatch / manhole covers	Access covers and quick-acting formats	Opening; fixing; operating duty
Hardware & seals	Hinges, handles, closure parts and gaskets	Unit model / drawing; part photographs

EQUIPMENT / BRAND REFERENCES

Existing manufacturer / vessel drawing / VETUS

Opening: Drawing, cutout and corner details | Rating: Weather / watertight or fire requirements

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 20

Pilot & passenger seating

Helm, pilot and passenger seating enquiries for smaller commercial and leisure craft. Match the seating arrangement to the available space and duty.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the deck fixing pattern and available installation space.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Pilot / helm chairs	Operator seating with the required support	Duty; footprint; adjustment needs
Pedestals & bases	Manual / powered height and mounting options	Base pattern; height; seat model
Passenger / ferry seating	Single and multi-seat arrangements	Seat count; layout; space
Seat mechanisms	Sliders, arms and adjustment components	Seat make / model; required part
Cushions & fittings	Upholstery and mounting components	Finish; dimensions; fixing arrangement

EQUIPMENT / BRAND REFERENCES

Existing seat manufacturer / model / VETUS

Use: Pilot / helm or passenger seating | Footprint: Space and fixing dimensions

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 21

Raw-water strainers & intakes

Raw-water intake filtration parts and fittings. Match the existing connection arrangement and the required seawater circuit duty.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Photograph the lid, body and connections; include the inside basket dimensions.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Raw-water strainers	Complete cooling-water strainer assemblies	System served; connection size; mounting
Baskets, lids & seals	Strainer-specific service parts	Model; basket / gasket dimensions
Intake scoops	Specified scoop and intake formats	Connection; material; hull arrangement
Thru-hull fittings	Bronze, stainless and other specified fittings	Thread; bore; material; hull thickness
Valves & connections	Intake-system valves and associated fittings	Connection sizes; duty; installation details

EQUIPMENT / BRAND REFERENCES

Guidi / Ancor / DJ Pump / VETUS

System: Engine or equipment served | Connections: Pipe / hose size and thread

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 22

Transfer & pressure pumps

Fluid-handling pumps for suitable water, fuel and lubricating-oil applications. Match the fluid, duty and power source to the pump design.

6050 model series

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

State the actual fluid. A water-pump rating alone does not define suitability for fuel or oil.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Water / pressure pumps	Transfer, pressure and booster duties	Liquid; flow; head; power supply
Diesel-transfer pumps	Fuel-transfer equipment enquiries	Fuel; required flow; connections; supply
Oil-transfer pumps	Lubricating-oil handling duties	Oil / viscosity; temperature; flow
Gear / impeller pumps	Suitable specified pump mechanisms	Liquid; existing model; operating duty
Other transfer arrangements	Self-priming and other specified formats	Suction; discharge; required duty
Pump spares / accessories	Seals, impellers, switches and fittings	Pump model / serial; component number

EQUIPMENT / BRAND REFERENCES

Marco / Liverani / Davey / Seaflo

Fluid: Liquid, temperature and application | Duty: Required flow, head and suction details

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 23

Bilge & submersible pumps

Bilge evacuation, sump and submersible-pump enquiries. Select by supply, liquid, required flow and discharge arrangement.

360 GPH (1363 LPH) Standard Bilge Pump

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the old pump label and actual discharge arrangement when requesting a replacement.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
DC bilge pumps	Submersible evacuation pump arrangements	Voltage; required flow; discharge size
Automatic bilge pumps	Integrated or switched automatic formats	Existing model; control / sensing type
AC submersible pumps	Specified drainage and water-pump duties	Supply; liquid; head and required flow
Shower-sump systems	Sump assemblies and replacement parts	System model; connections; space
Level switches	Float and suitable level-control devices	Voltage; switching duty; mounting
Accessories & connections	Bases, check valves and discharge fittings	Pump model; hose size; required component

EQUIPMENT / BRAND REFERENCES

Jabsco / Seaflo / Daehwa / existing pump make / Rule

Power: Supply voltage and electrical details | Duty: Required flow and discharge head

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 24

Watermakers & treatment

Freshwater generation and water-treatment equipment, including compatible consumables and service parts. Specify the production and installation requirements.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the system nameplate when ordering membranes, filters or replacement components.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Reverse-osmosis watermakers	Portable and installed RO arrangements	Required output; power; space
Distillation generators	Heat-based freshwater equipment	Demand; available heat; installation details
Filters & membranes	Watermaker consumables and service parts	System model; filter / membrane code
Pumps & controls	Compatible high-pressure and system parts	Watermaker number; component code
Treatment equipment	Specified water-treatment / electrolysis units	Treatment duty; water quality; requirements
Connections & installation parts	Hoses, fittings and mounting components	System drawing; connection sizes

EQUIPMENT / BRAND REFERENCES

Fontemar / Osmomar / Rainman

Capacity: Required production per hour or day | Supply: Power or available heat source

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 25

Toilets & sanitation

Marine toilet and sanitation components. Identify the installed system, water supply and discharge arrangement before selecting replacements.

Electric toilet regular bowl size

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

For service kits, send a photograph of the pump assembly and model label.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Manual toilets	Compact and other manual-pump formats	Make / model; mounting; connections
Electric toilets	Powered toilet and flush arrangements	Voltage; flush-water supply; footprint
Vacuum sanitation	System-compatible vacuum toilet enquiries	Installed system; controller; plumbing
Pumps & macerators	Flush, discharge and macerator components	Pump code; voltage; connection sizes
Valves, seals & service kits	Toilet-specific service components	Toilet / pump model; required kit
Controls & connections	Panels, switches and sanitation fittings	System model; inlet / outlet details

EQUIPMENT / BRAND REFERENCES

Jabsco / Dometic / Raritan / TMC

Toilet: Manufacturer, model and age | Supply: Manual / electric, voltage and flush water

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 26

Charging & power conversion

Battery charging, power conversion and related accessories for onboard electrical systems. Identify the input, output and battery-bank arrangement.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send a photograph of the existing charger nameplate and the battery labels.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Battery chargers	Marine AC-to-DC; multiple battery banks	DC voltage; battery chemistry; charge current
Higher-output chargers	Larger-bank and higher-current units	Bank capacity; AC input; installation space
Inverters	Pure sine wave; other specified formats	DC input; AC output; required power
DC-to-DC converters	Voltage conversion between DC systems	Input / output voltage; current rating
DC power supplies	Specified AC-to-DC supply arrangements	Input; output; mounting; duty
Controls & accessories	Remotes, sensors, connections and protection	Charger / inverter model; required accessory

EQUIPMENT / BRAND REFERENCES

Quick

DC system: Battery-bank voltage and chemistry | Capacity: Battery Ah and required charger output

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 27

Navigation lights & searchlights

Vessel lighting and replacement components. Selection depends on vessel requirements, electrical supply and the intended light function.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Identify the exact light function and required approval when requesting a quote.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Navigation lights	Port, starboard, masthead and stern functions	Vessel length; light function; supply
All-round / signalling lights	Specified colours and signal arrangements	Function; visibility; approvals needed
Towing / special-duty lights	Light arrangements specified for the vessel	Required function and certification
Searchlights	Fixed, movable and remote-control formats	Voltage; mounting; beam / operating duty
Lamps, controls & fittings	Bulbs, brackets and matching control parts	Installed light; lamp / accessory code

EQUIPMENT / BRAND REFERENCES

Jabsco / Marco / existing light manufacturer

Vessel: Length, duty and applicable requirements | Light: Function, colour and required visibility

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 28

Horns & audible signalling

Audible signalling equipment and compatible operating parts. The vessel's requirements determine the appropriate horn or whistle.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the required certification and existing horn model in your enquiry.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Electric horns	Single, twin and other requested horn formats	Voltage; mounting; vessel requirements
Air / compressor horns	Horn sets and pneumatic arrangements	Air / compressor details; horn model
Electronic whistles	Signalling units, speakers and controllers	Vessel duty; system model; approvals needed
Controls & switches	Push buttons and compatible control parts	Voltage; control type; system details
Mounting & fittings	Brackets, connections and associated items	Existing unit; installation photographs

EQUIPMENT / BRAND REFERENCES

Marco / VETUS

Vessel: Vessel length and applicable requirements | System: Horn / whistle make and model

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 29

Fire detection & alarms

Fire-detection system components and replacement parts. Identify the existing system and the required approvals for the vessel.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Send the panel label and detector model. Compatibility and approvals are confirmed per item.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Control panels	Fire-alarm panels and matching parts	Manufacturer; zones / loops; model
Smoke detectors	Compatible smoke-detection devices	Detector / base code; system compatibility
Heat detectors	Fixed-temperature and other specified formats	Required detection type; panel details
Manual call points	Alarm points and matching bases / covers	System make; mounting; environment
Sounders & indicators	Bells, sirens, strobes and alarm indication	Voltage; output type; installed system
System components	Interface, backup and replacement parts	System drawing; part number; approvals needed

EQUIPMENT / BRAND REFERENCES

Existing alarm-system manufacturer / Marinelec

System: Panel manufacturer and model | Architecture: Zones, loops or existing arrangement

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 30

Solar lanterns & marker lights

Self-contained and solar-powered marine marker lights. Define the site, signal characteristics and visibility requirement for the enquiry.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

State the exact signal required. Site suitability and current specifications are checked per enquiry.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Solar marine lanterns	Self-contained solar / LED arrangements	Colour; flash pattern; required range
Buoy / dock marker lights	Fixed and floating marking applications	Site; signal; mounting; visibility
Fishing marker lights	Fishnet and related marking enquiries	Operating duty; colour; arrangement
Larger lantern systems	Specified lantern / solar-power arrangements	Site requirements; power; installation
Batteries & service parts	Compatible energy and mounting components	Lantern model; battery / accessory code

EQUIPMENT / BRAND REFERENCES

Specified lantern manufacturer / model / Sealite

Signal: Colour and flash characteristic | Visibility: Required nominal range

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 31

Wipers & clear-view screens

Wheelhouse visibility equipment and replacement components. Match the motor, sweep, arms and screen arrangement to the installation.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Photograph the motor label, arm connection and window arrangement.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Pantograph wipers	Parallel-arm wheelhouse arrangements	Window size; arm / blade lengths
Straight-arm wipers	Single-arm and specified sweep formats	Sweep; park position; mounting
Motors, arms & blades	Replacement wheelhouse-wiper parts	Motor model; voltage; shaft / drive fit
Washers & controls	Jets, reservoirs and control components	Installed system; required accessory
Clear-view screens	Rotating-screen equipment and service parts	Screen model; diameter; mounting

EQUIPMENT / BRAND REFERENCES

Jung-A / existing wiper manufacturer / VETUS

Window: Glass dimensions and arrangement | Drive: Motor model, voltage and shaft

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 32

Lifesaving & nautical equipment

Lifesaving, signalling and nautical-equipment enquiries. Required approvals, expiry dates and vessel requirements are confirmed for the quoted items.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include the vessel's equipment list or survey requirement when seeking replacements.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Lifejackets / flotation	Foam, inflatable and working-vest enquiries	User / vessel duty; quantity; approvals
Lifebuoys / MOB equipment	Buoys, lights and rescue-related components	Item type; mounting; required certification
Liferafts / lifesaving items	Equipment specified for the vessel	Persons aboard; survey / equipment list
Distress signals	Specified flare and signalling requirements	Required type; certification; delivery
Fire equipment	Extinguishers, hoses, boxes and related items	Duty; size; certificates; service needs
Nautical equipment	Flags, shapes, bells and instruments	Exact item / dimensions; quantity

EQUIPMENT / BRAND REFERENCES

Lalizas / specified equipment manufacturer

Vessel: Type, persons aboard and operating area | Item: Exact equipment type and quantity

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 33

Inflatable boats & tenders

Inflatable craft, tenders and associated replacement parts. Define the intended use, capacity and storage needs before requesting options.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

For accessories or repair parts, include the boat make, model and valve photographs.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Inflatable tenders	Compact tender and access-craft enquiries	Length; persons; payload; intended use
Larger inflatable craft	Larger formats and specified hull arrangements	Duty; capacity; storage / transport needs
Floor / deck options	Air, aluminium and other specified formats	Boat model; requested floor arrangement
Outboard arrangements	Transom and compatible installation enquiries	Boat rating; proposed outboard
Accessories & parts	Valves, seats, pumps and model-specific parts	Boat make / model; accessory photographs

EQUIPMENT / BRAND REFERENCES

Aqua Quick / Duramarin / Scorpion / VETUS

Duty: Tender, leisure, access or other use | Capacity: Required persons and payload

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

RANGE 34

Modular floats & dock hardware

Modular floating structures and their connection parts. A layout and site requirements help define an appropriate enquiry.

EXAMPLE RANGE IMAGE

MATCHING INFORMATION

Include a simple drawing and identify the existing module system, if extending it.

PRODUCT SELECTION

PART FAMILY	CONFIGURATION	DETAILS FOR MATCHING
Floating modules	Main cubes and floating-platform modules	Layout; area; duty and loading
Joining hardware	Pins, bolts, nuts and module connectors	Existing module system; connection type
Edge & access elements	Edges, transitions, steps and access parts	Layout drawing; access arrangement
Mooring attachments	Cleats and system-specific attachment parts	Mooring layout; loads; fixing details
Dock / dry-dock layouts	Modular platform enquiries	Boat size; site; proposed arrangement

EQUIPMENT / BRAND REFERENCES

Coma / existing modular system / Cubisystem

Layout: Sketch, overall dimensions and access | Duty: Intended use and design loading

REQUEST A QUOTE

Send your part number, photos, quantity and required date.

Equipment makes for matching

Names help identify equipment and replacement parts. The brand offered and supply arrangements are confirmed in the quotation.

MAKE / BRAND	EQUIPMENT CLASS
AAA	Marine equipment
ANCOR	Cooling pumps & intakes
AQUA QUICK	Inflatable craft
AXI	Fuel conditioning
BARIGO	Instruments & gauges
BOMAR	Hull openings
BOWMAN	Heat transfer
BUSHINGS	Engine mountings
C-MAP	Charts & navigation
CATERPILLAR	Engine / generator parts
CHANG YUNG	Heat transfer
COMA	Floating systems
COMMAX	Marine equipment
CUBISYSTEM	Floating systems
CUMMINS	Engine / generator parts
DAEHWA	Marine equipment
DAEWOO	Engine / generator parts
DAIKO	Compasses
DATA	Steering
DAVEY	Pumps
DENKO	Electrical generation
DJ PUMP	Cooling pumps & intakes
DOMETIC	Sanitation & pumps
DONG NAM	Instruments & gauges

MAKE / BRAND	EQUIPMENT CLASS
DONG-I	Gearboxes
DURAMARIN	Inflatable craft
FLEXBALL	Controls & cables
FLOPOWER	Pumps
FONTEMAR	Marine equipment
FUEL MAG	Engine / generator parts
FURUNO	Marine electronics
GARMIN	Marine electronics
GUIDI	Cooling pumps & intakes
HAI YANG	Marine electronics
HINO	Engine / generator parts
HYDRODRIVE	Steering
HYUNDAI	Marine equipment
ICOM	Marine electronics
JABSCO	Sanitation & pumps
JMC	Marine electronics
JOHNSON	Cooling pumps & intakes
JRC	Marine electronics
JUNG-A	Wipers & screens
KODEN	Marine electronics
KUS	Instruments & gauges
LALIZAS	Safety equipment
LASDROP	Marine equipment
LENCO	Trim systems

Equipment makes for matching

Names help identify equipment and replacement parts. The brand offered and supply arrangements are confirmed in the quotation.

MAKE / BRAND	EQUIPMENT CLASS
LEROY SOMER	Electrical generation
LIVERANI	Pumps
LS(LECOMBLE & SCHMITT)	Steering
MAJONI	Fenders & buoys
MARCO	Horns & pumps
MARELLI	Electrical generation
MARINELEC	Fire detection
MAROL	Steering
MARSILI	Steering
MARTYR	Anodes
MATRO	Sanitation & pumps
MAVIMARE	Steering
MCMURDO	Marine electronics
MECC ALTE	Electrical generation
MITSUBISHI	Engine / generator parts
MORSE	Controls & cables
NAVIONICS	Charts & navigation
NICO	Gearboxes
NISSAN	Engine / generator parts
ONAN	Engine / generator parts
PERKINS	Engine / generator parts
PLASTIMO	Compasses
POLYFORM	Fenders & buoys
PURAFINER	Fuel conditioning

MAKE / BRAND	EQUIPMENT CLASS
QUICK	Winches & anchoring
RACOR	Fuel filtration
RAINMAN	Watermakers
RARITAN	Sanitation & pumps
RAYMARINE	Marine electronics
RITCHIE	Compasses
RULE	Bilge pumps
SA MART	Controls & cables
SAM YUNG	Marine electronics
SCORPION	Inflatable craft
SEAFLO	Pumps
SEALITE	Marine lanterns
SEAMASTER	Compasses
SEASTAR	Steering
SEIWA	Marine electronics
SHERWOOD	Cooling pumps & intakes
SOLAS PROPELLERS	Propellers
STAMFORD	Electrical generation
STEINER	Marine optics
TECHNOSEAL	Anodes
TMC	Sanitation & pumps
TOKIMEC	Compasses
TOKYO COMPASS	Compasses
TRAC	Winches & anchoring

Equipment makes for matching

Names help identify equipment and replacement parts. The brand offered and supply arrangements are confirmed in the quotation.

MAKE / BRAND	EQUIPMENT CLASS
TSK	Controls & cables
TSURUMI	Pumps
UFLEX	Steering
ULTRAFLEX	Steering
VDO	Instruments & gauges
VETUS	Marine equipment
VOLVO	Engine / generator parts
WEMA	Instruments & gauges
YANMAR	Engine / generator parts

Send one clear enquiry.

Copy the details below into an email or WhatsApp message.

DETAIL	INCLUDE IN YOUR MESSAGE
Your company / vessel	Company, vessel name, boat type and contact person.
Equipment identification	Manufacturer, model and serial number from the nameplate.
Part required	Part number, description and required quantity.
Photographs	Part markings, connections, mounting points and both sides.
Dimensions	Measurements, port / thread sizes and fixing centres.
Delivery / timing	Delivery location, target date and any collection requirement.
Other requirements	Required certificates, preferred make and suitable alternatives.

TAP OR SCAN

The details that matter.

Matching the installed equipment helps prevent an unsuitable replacement.

EQUIPMENT	MATCHING INFORMATION
Pumps & impellers	Pump code; dimensions; bore / drive; ports; rotation; intended liquid.
Engine mountings	Equipment mass; load per mount; bolt centres; stud; fitted height.
Control cables	Code; overall length; end fittings; travel; existing helm / engine.
Propellers & hubs	Engine / drive; stamped diameter and pitch; spline / shaft; rotation.
Gauges & senders	Gauge range; sender signal; supply voltage; thread / mounting.
Hatches & windows	Cutout; overall size; corner radius; thickness; fixings; required rating.
Windlasses & steering	System model; drive / supply; mounting; chain or hydraulic connections.
Safety & signalling	Vessel type / size; operating area; required approvals / certification.

PHOTOGRAPHS + PART NUMBERS

An image in this catalogue is a range example. Send the exact installed part or nameplate before ordering. Detailed dimensions, performance ratings and compatibility are confirmed for the item in the quotation.
